

ABOUT THE VENUE...

LaitseRallyPark has been growing for more than 10 years and continues to develop further. From the initial idea of a place for professional racers to practice and building a track for own use it has now become the greatest car themed adventure park in Estonia. LaitseRallyPark is a great combination of several racing tracks for training and entertaining, rooms for seminars and events and that of course is meant for people of all ages!

BECOME A REAL RALLY PILOT...

Try racing for yourself! We offer very popular Lada or BMW race. Racing takes place on a 2.3km tarmac/gravel double track (super special stage) - just pick the car and the track is yours...!

Briefing on safety precautions is done before every single race. For smaller groups we organize races with 2 cars on the track at the same time and for bigger groups it is possible to plan the competition in rally sprint format with up to 5 cars on the track.

Sounds exciting? It sure is!

The biggest group yet has been 220 participants!

TRY OUT OUR WORLD CLASS GO-KART TRACK...

Would you like to compete on a track that is designed by a professional, well-known German F1 track designer? You can if you come to LaitseRallyPark!

Our 600m outdoor go-kart track is open all year round - even when it's raining, snowing, melting or properly freezing outside! The more difficult weather the better!

Our summer karts have also weight boxes making it possible to enjoy an even competition for up to 12 participants at a time!

TO BECOME A FIRST CLASS DRIVER...

...it would be necessary to collect more experiences and do a lot of practice!

Why not to visit LaitseRallyPark for those reasons since now we are equipped with the special inventory for safe and slippery drive. We recommend you to practice on a special asphalt and extra slippery square, passing through different exercises to get a better car recognition and feel more confident while driving. It will be even more effective to be guided by the instructor during the practice. It might aswell be a part of your next entertaining event, where you get both - a lot of fun on our racing tracks and more experiences becoming a first class driver on a practice square.

TASTE SOMETHING TRICKY IN BETWEEN...

If you would like to experience something not as competitive as racing or go-karting, be our guest to test your skills in tricky driving or handling the UAZ car on an off-road track.

The tricky car is unique because of the inverted steering - when you turn the steering wheel left the car goes right. It is a fun thing to do, not to mention that it is even more fun to watch others do it! UAZ car puts you to the test in mountains, driving over the logs and through different slopes. It is quite a challenge to get it back to the start - what an amazing feeling when you get it done!

One of our tricky cars has its steering wheel on the right - it can't get trickier than that!

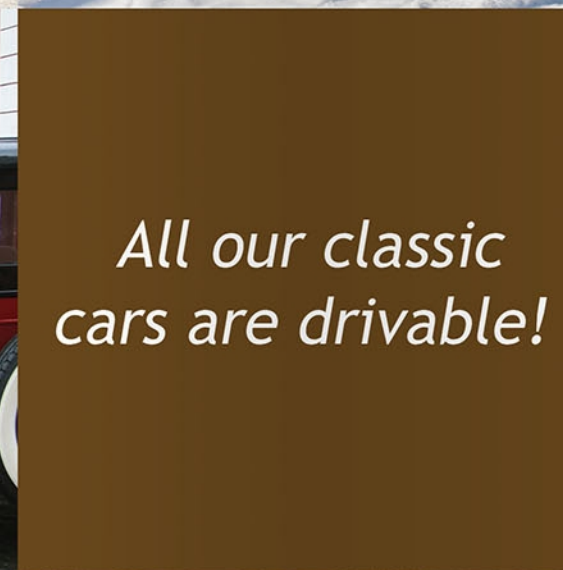

1. Entrance
2. Tarmac/gravel racing track
(Lada, BMW, co-drives)
3. Model car track
4. Tribune house, classic cars expo
5. Seminar rooms
6. Off-road track

10. Workshop and car wash
11. Cafeteria
12. Sauna cottages
13. Game house
14. Traffic city
15. Competition kart track

WANT TO KNOW HOW THEY DROVE BACK THEN...?

This is the part where seeing is believing! In LaitseRallyPark you will find an exclusive collection of old and unique cars. We have dozens of cars that are drivable - some of them are rented only with a driver and others you can drive yourself. It is possible to just come and see those beauties here on spot but then again if you have been dreaming about sitting inside an old American car then just get in touch and we will rent one to you. If there is any formal event or wedding coming up, we will be more than glad to be there with the car you have chosen and a personal driver in it!

*Want to make your event unforgettable -
with our cars it is guaranteed!*

IS IT REALLY YOU, DRIVING WITH A SOVIET CAR?

If you are in a mood to drive around with an old Soviet car, then please contact us, LaitseRallyPark! The choice of different models is remarkable. You may choose to drive with the car yourself or rent it with a driver. We are happy to organise round tours in Tallinn City Center or plan a transfer from your hotel to the event place. Driving with old Soviet cars may also be a part of your exciting event here in LaitseRallyPark if you decide to have a tour around our park and visit some of the historic places and monuments near us.

Sounds interesting? Let`s start planning...

You can choose to go nostalgic from more than a dozen cars!

LET'S TAKE IT TO ANOTHER LEVEL...!

Racing yourself is one thing but sitting next to a professional - that really is something else!

You may decide to take a seat in an old Lada rally car or experience co-drive in a drift car!

Got the chills?

Wait until you get inside or even better - to the track...

1984 World Rally
Champion Stig
Blomqvist has
driven the same
co-drive Lada

BY YOU, YOU MEAN YOUR WHOLE FAMILY?

Our park is not meant only for grown-up kids but we are more than glad to welcome all children as well. For families we have the outdoor traffic city with different vehicles like pedal karts, Jeeps, electrical cars and bicycles together with small houses, sandbox and gas station.

Game house then again has several play areas (including movie theatre, Lego corner, xBox, PS consoles and rally simulator). This is all perfect for the parents to play and learn traffic with their kids!

Feel like you don't want to miss it -
then there is no time left to wait!

WHEN IT IS TIME TO DO BUSINESS...OR JUST RELAX!

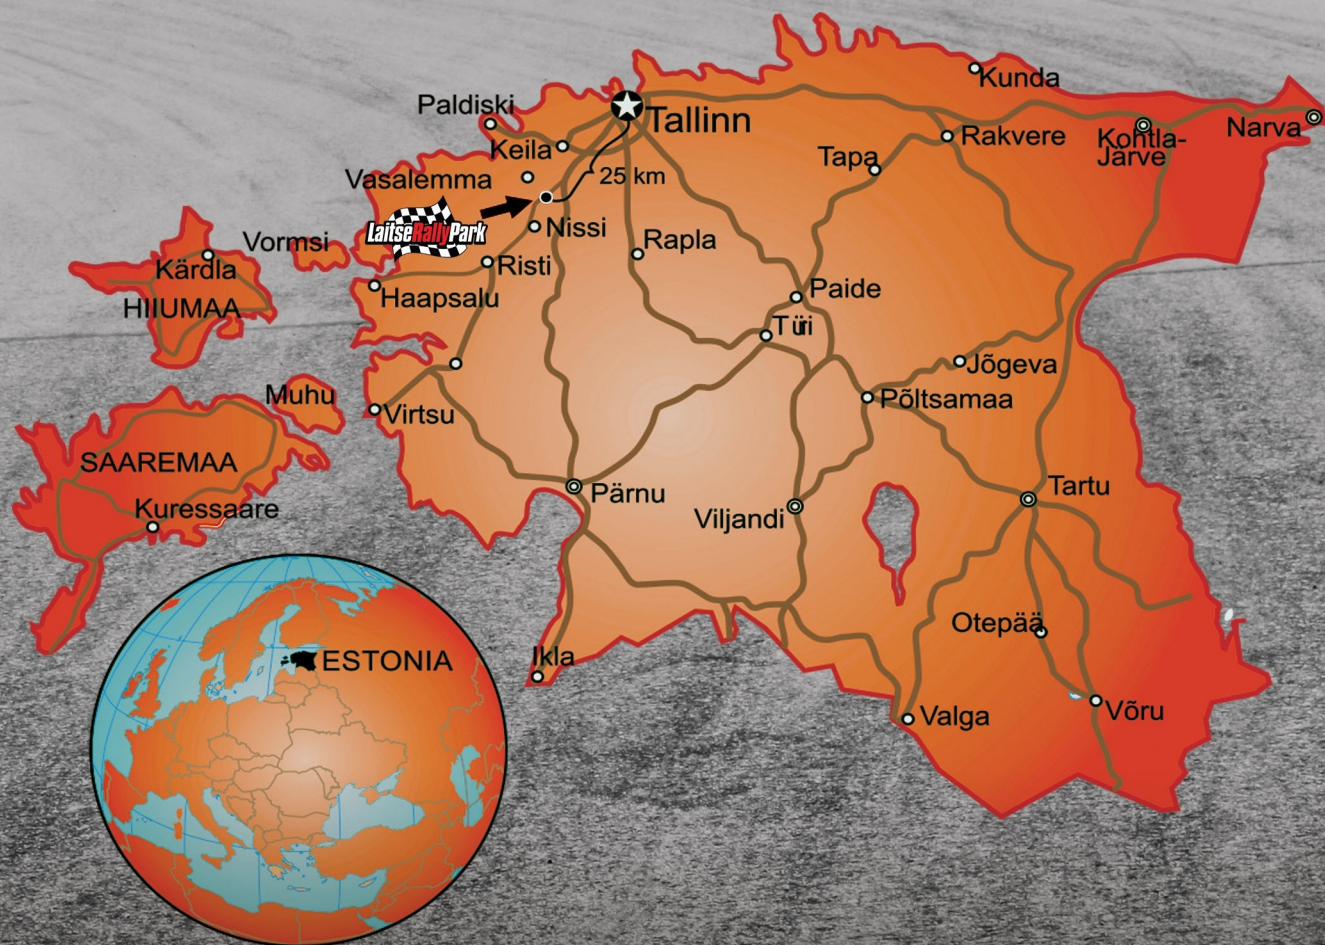

Sometimes it is necessary to work hard before playing...

For corporate clients we have many meeting rooms depending on your needs. After working for long hours it is so liberating to race on our tracks, have fun behind the tricky car wheel or sum up the event in our nostalgic Retro room! In LaitseRallyPark you can have it all!

For those who prefer to relax we have two cozy sauna cottages that are just ideal to take time off and hang out with your best mates or colleagues.

*Sounds like a fairy tale,
but it all becomes real in LaitseRallyPark.*

ONLY 30-MINUTE DRIVE FROM TALLINN...
